A Citizens Narrative

Concept

Citizen21 Compass is a monthly gathering of citizens one evening at a chosen venue in Copenhagen. The first one took place at Fidel's cocktail bar on September 15th 2010.

It is part of a series of activities that Citizen21 is initiating to turn citizenship into a reality.

The best way to do so is to be part of a community and a human narrative. We all share the city and as citizens of the city we have great opportunities to set the tone.

Citizen21 Compass strives to be the platform upon which people can gather after work or study, have fun, discuss serious and non serious matters, network and expand their world, as well as take a common and informed stand on the matters of the moment.

A Citizens Narrative

Frequency

It is designed to happen in the first week of every month in Copenhagen, at a bar or café or pub or other appropriate venue where it is possible to do the above mentioned.

Purpose

The purpose is to build a community that will grow over time and become ambassadors and carriers of the spirit of a new kind of citizenship.

Citizenship as human story

It is intended to become a narrative where citizens build relations and contacts. At each event there will be a list available where attendees can register with their contact information. In doing so they will be integrating the growing community and will be invited to come and bring their friends the next time. Everything will happen on a clear volunteer basis and the sense of respect, decency and openness shall be our motto.

Your platform

Citizen21 Compass is also an occasion where any citizen who has something at heart and wants to share with others can ask to have the word and the attention of the crowd. Any topic is allowed as long as it forwards the cause of a more vibrant and human citizenship.

Freedom of expression

Political, cultural, religious, economical and other matters can be discussed and debated as long as it is done in the spirit of Citizen21, respect and openness. We don't need sleaze or mud throwing, we want to change the tone for the better and take it in our hands.

Going strong

For Citizen21 it is also a way to build a faithful base that will allow it to benefit from their expertise regarding the course of the movement as well as suggestions as to how to be more efficient in promoting citizenship in these times.

Perspectives

Over time there will be variations and expansion of the scope to include some occasional performances from artists, academics and other who could inspire us with their story and expertise in given domains.

Citizen21 Compass members will be updated and informed about the activities and plans of the organization and can follow firsthand the evolution of the work on other fronts in the society
